

Panasonic PT DW730/E/U/L/S

PANASONIC PT DW730/E/U/L/S

The stationary PT DW730/E/U/L/S DLP projector from Panasonic has 7000 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 800 resolution. The integrated lens shift gives freedom when positioning the projector. 7000 Ansi lumens ensure that a picture width of 850 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. On the market since 2011, the model is no longer offered by the manufacturer Panasonic.
