

Panasonic PT-FRZ50 /WU

PANASONIC PT-FRZ50 /WU

A brief introduction to the Panasonic PT-FRZ50 /WU. The stationary DLP laser projector has a WUXGA 1920 x 1200 resolution and a contrast of 20000:1. The manufacturer claims a laser life of 20000 hours, which is over 13.7 years with four hours of use per day. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. Thanks to the brightness of 5200 Ansi lumens, an image width of 733 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 489 cm). It is also Full HD 1080P and 4K (compressed) compatible. Even projection onto the ceiling is possible thanks to the 360° projection.
