The Panasonic PT LB78E/A LCD projector has 3000 Ansi lumens, a contrast of 500:1 and an XGA 1024 x 768 resolution. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. A picture width of up to 477 cm is possible. However, the picture should be smaller in ambient light. We recommend max. 318 cm. The projector was launched in 2009 and is no longer sold by the manufacturer.
