

Panasonic PT-VMQ65

PANASONIC PT-VMQ65

With the PT-VMQ65, Panasonic offers an LCD laser projector with UHD (4K2K+) 3840 x 2400 resolution and a contrast ratio of 5000000:1. Thanks to laser technology, the projector has a light life of up to 20,000 hours, which equates to over 13.7 years of enjoyment at four hours per day. The lens shift function allows the projector to be set up very freely. The projector can illuminate an image width of up to 819 cm thanks to its 6500 ANSI lumens. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 546 cm. It is also Full HD 1080P and 4K compatible, and can even project Blu-rays onto the ceiling thanks to its 360° projection.

 3 x 0,64" LCD Panel
