

Panasonic PT-VMZ41 /B/W

PANASONIC PT-VMZ41 /B/W

Brief Introduction

Beta 2.5

The Panasonic model PT-VMZ41 /B/W is an LCD laser projector with WUXGA 1920 x 1200 resolution and a contrast of 3000000:1. Due to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The projector also offers an integrated media player with which files can be played directly. The integrated lens shift gives you freedom when positioning the projector. 4500 Ansi lumens ensure that a picture width of 682 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. The model built in 2022 is no longer offered by Panasonic.
