

Panasonic PT-VMZ51 /B/W

PANASONIC PT-VMZ51 /B/W

A brief introduction to the PT-VMZ51 /B/W: The Panasonic laser LCD projector offers 5200 Ansi lumens, a contrast of 3000000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. Including an integrated media player with which files can be played directly. The built-in lens shift and keystone correction function provides freedom when setting up. An image width of up to 733 cm is possible as the projector has 5200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 489 cm is recommended. Video signals 1080P and 4K (compressed) are also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection.
