

Philips NeoPix 122

PHILIPS NEOPIX 122

Manufacturer Philips offers the NeoPix 122, a portable gaming LCD LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 3000:1. The service life is 30,000 hours due to the LEDs, which would be over 20.5 years at 4 hours a day. The integrated media player can play files directly. The projector can illuminate up to 102 cm of image width well due to the 100 Ansi-Lumen. However, in room light, the image width should ideally be under 68 cm. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. Furthermore, the projector can play 1080P without any problems. The model was built by Philips in 2023 and is no longer up to date, but is still a popular projector in our database.
