The Philips NeoPix 444 model is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1000:1. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. It includes an integrated media player that allows files to be played directly. An image width of up to 227 cm is possible, as the projector has 500 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 151 cm wide. The projector can also play 1080P without any problems.
