

Polocsh P7

POLOCSH P7

Brief Introduction

Beta 2.5

Brief introduction to the Polocsh P7. The micro-portable LCD LED projector has HDTV 1920 x 1080 resolution and a contrast ratio of 15000:1. The manufacturer specifies an LED service life of 50,000 hours, which equates to over 34.2 years at 4 hours per day. The projector also offers an integrated media player that allows files to be played directly. The projector can illuminate images up to 240 cm wide thanks to its 600 ANSI lumens. However, in room lighting, the image width should ideally be less than 160 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Even 1080P and 4K (compressed) video signals are no problem for the projector.
