

InFocus Introduces Newest Meeting Room Projector in the ASK Proxima Product Portfolio

*New ASK Proxima C170 Enables Users to Project from a Standard USB Port
and Includes User-Requested Ease-of-Use Features*

WILSONVILLE, OR, June 9, 2004 –InFocus® Corporation (Nasdaq:INFS), the worldwide leader in digital projection technology and services, today introduces its newest meeting room projector, the ASK Proxima® C170. The new projector offers powerful performance and flexibility, and includes an embedded PC-Free Playback system that allows users to easily project .jpg images from a USB flash drive with the freedom of not needing a computer or CD drive.

The ASK Proxima C170 features automatic vertical keystone and ceiling detection enabling it to be easily transported or installed in business, government or education settings. Additionally, it has the latest generation DLP™ technology from Texas Instruments®, the DDP2000, 2000 lumens of brightness and a contrast ratio of 1000:1 to provide powerful performance at an affordable price.

The ASK Proxima C170 also includes a software utility that can be used to easily convert documents into high-quality .jpg images with one click in order to load on most industry standard USB flash drive. To provide additional value and enable IT personnel to manage resources more efficiently, the ASK Proxima C170 also is compatible with InFocus LiteShow® wireless module, and networked control capability through InFocus ProjectorNet™ software.

"The ASK Proxima C170 continues our commitment to bring innovative and reliable solutions to meet the needs of our channel partners and their customers," said Scott Hix, Senior Vice President and General Manager, Americas Business Unit at InFocus. "The C170 is perfect for education, government and commercial departmental deployment."

To reduce support requirements and enhance end user satisfaction, the ASK Proxima C170 includes a suite of user-friendly features including an LCD display window that communicates on-going status information, color-coded cables, simplified keypads, menus and remote controls.

Availability

The ASK Proxima C170 will be available in July 2004. For more information, please visit www.askproxima.com.
