BOXLIGHT Introduces the XD-25m
*New Multimedia Projector One of the Lightest
and Smallest Units on the Market*

Poulsbo, WA (September 4, 2003)—**BOXLIGHT** the first name in digital projectors, is proud to announce the **XD-25m**—an attractive, ultra lightweight projector complete with many of the same features of its larger counterparts. Comparable in size to a VHS tape and weighing just 1.98 lbs, this petite projector can be tucked into a purse, briefcase or laptop bag, making it ideal for the traveling business professional requiring the latest technology without the bulk.

With **true 1024 x 768 XGA resolution, 2000:1 contrast ratio** and **1100 ANSI lumens**, the XD-25m projects a crisp and crystal clear image. The XD-25m offers a **M1-DA digital/analog input** allowing for a true digital quality picture.

“The XD-25m revolutionizes the idea of what a projector is to a traveling presenter,” said Jill Miller, Vice President of Sales and Marketing, “It is incredible a unit this small offers such brightness, has exceptional picture capabilities and outstanding features.”

On-board (audio) speakers and the versatile video input allow for multimedia presentations. With an audible noise rating of just 37dB, the XD-25m is extremely quiet, making it ideal to present in small rooms—where even the slightest unwanted noise can distract from a presentation.

Easy to set up and use, the XD-25m features built-in **digital zoom imaging** and **digital keystone adjustment**, both of which are conveniently accessible through the unit’s remote. The **manual zoom lens** makes presenting in any size or shape of room a painless experience, while color coded connections allow for quick and easy set-up.

Perfect for the professional visionary looking for the latest technological wonder or the traveling presenter who needs a hassle-free projection partner, the XD-25m is as easy to use and tote around as it is to look at.

Here are a few of the many features the XD-25m has to offer:

- Σ ***Sharp Image***: True 1024 x 768 XGA with compression for 1280 x 1024 SXGA results in a crystal clear image.

- Σ **Smallest projector on the market:** Weighing in at just 1.98 lbs., this ultra-portable projector can be comfortably carried anywhere.
- Σ **Present with the lights on:** 1100 ANSI lumens help to create a bright and clear presentation in small to medium venues.
- Σ **Outstanding Image:** 2000:1 contrast ratio ensures that video images are rich in detail.
- Σ **Create a square image:** With digital keystone adjustment a square image can be created on the screen in virtually any environment.
- Σ **Enhance a specific detail on the screen:** Digital zoom imaging can easily enlarge a section of the screen with a touch of a button.
- Σ **Easy to set-up and use:** Manual zoom lens makes it simple to adjust the screen size to present in variable room sizes and the wireless laser remote mouse allows for complete control of the projector and presentation. Even inexperienced users can quickly set the unit up with the color coded connections.
- Σ **Best image quality:** The M1-DA (digital/analog) input allows for direct digital-to-digital signals for the best computer image quality available.
- Σ **Equipped for multimedia presentations:** The on-board (audio) speaker and video input allow for full-featured presentations. And with only 37dB of audible noise the hum of the projector will not be heard by your audience.

BOXLIGHT is the first name in digital projectors with more experience and selection than anyone in the industry. Selling display and projection technology under its own brand of BOXLIGHT certified equipment, the company also offers the most innovative, high-quality products from InFocus, Hitachi, Proxima and Epson.

BOXLIGHT offers one of the best service and support packages available with a 15-day money back guarantee, two-year parts and labor warranty and a 120-day or 500-hour (whichever comes first) lamp guarantee. This is coupled with lifetime 24-hour technical support on all of its branded products.

Founded in 1985, BOXLIGHT operations have expanded to encompass sales in the United States, Mexico, Canada and worldwide. The company also offers a convenient Web-based leasing program with low monthly payments, flexible terms, and purchase options.

Projector specifications, photographs, prices and additional information regarding BOXLIGHT products and services are available on-line at www.boxlight.com or by calling (800)762-5757 (USA) or +1(360)779-7901 (International).
