

Prixton Miró

P R I X T O N M I R Ó

With the Miró, manufacturer Prixton offers a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 3000:1. Thanks to its LEDs, the projector has a lamp life of up to 30,000 hours, which assuming 4 hours of daily use would amount to over 20.5 years. It includes a built-in media player that allows files to be played directly. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. An image width of up to 170 cm is possible. However, in bright room conditions, the image should be set to a smaller size. We recommend a maximum of 113 cm. Since the projector recognizes AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Playing 1080p content is also no problem for the projector.

Brief Introduction

Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

800

356 Lux (200 cm Screen width)
