PURSHE AK-83

A brief introduction to the AK-83: The PURSHE micro-portable LED LCD projector offers 540 Ansi lumens, a contrast of 8000:1 and HDTV 1280 x 720 resolution. Thanks to the LEDs, the projector has a light life of up to 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. Includes an integrated media player that can be used to play files directly. Horizontal and vertical keystone correction makes image setup childs play. As PURSHE specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 540 Ansi lumens, a picture width of 102 cm is possible. In room light, the picture should be max. 68 cm wide. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
