

Puxinat HI-04

P U X I N A T H I - 0 4

The Puxinat HI-04 LED LCD projector has 450 Ansi-Lumen, a contrast of 5000:1 and a HDTV 1280 x 720 resolution. It is an LED projector with 50000 hours of light life, which converts to over 34.2 years at 4 hours per day. The integrated media player can play files directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As Puxinat specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. The model is also Full HD 1080P compatible.
