

Ricoh PJ WUL5A50

RICOH PJ WUL5A50

Brief Introduction

Beta 2.5

A brief introduction to the Ricoh PJ WUL5A50. The standard portable LCD laser projector has a WUXGA 1920 x 1200 resolution and a contrast of 5000000:1. The manufacturer specifies a laser life of 20000 hours, which converts to over 13.7 years at 4 hours per day. Including a lens shift and keystone correction function, which provides freedom during installation. Thanks to the brightness of 5200 Ansi lumens, a picture width of 733 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 489 cm). Video signals 1080P and 4K (compressed) are also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection.
