

Roly RL-A500U

ROLY

LASER

Brief Introduction

Beta 2.5

Manufacturer Roly offers the RL-A500U, an LCD laser projector with WUXGA 1920 x 1200 resolution and a contrast of 1500000:1. Thanks to the laser, the projector is specified with a 200,000-hour light lifespan, which is over 13.7 years with four hours of use per day. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space around it. The projector can easily illuminate images up to 551 cm wide with its 5000 ANSI lumens. The projector can handle rooms with low light, but we would recommend a maximum image width of 367 cm for rooms with less light. Furthermore, the projector can play 1080P without any problems. It is even possible to project onto the ceiling thanks to the 360° projection.
