ROLY RL-E6W

Brief Introduction

Beta 2.5

A brief introduction to the RL-E6W: The Roly stationary laser LCD projector offers 6200 ANSI lumens, a contrast ratio of 5000000:1 and a WXGA 1280 x 800 resolution. It is a laser projector with a light lifespan of 20000 hours, which would be the equivalent of 13.7 years at 4 hours a day. Horizontal and vertical keystone correction allows for flexibility when setting up. 6200 ANSI lumens ensure that an image width of 800 cm is also possible. The projector can handle rooms with low light with a smaller image width; we would recommend a maximum of 533 cm. Furthermore, the projector can play 1080P without any problems and can therefore project Blu-rays even onto the ceiling using the 360° projection.
