Roly RL-HU700

ROLY

LASER

Brief Introduction Beta 2.5	The Roly RL-HU700 laser LCD projector has 7000 ANSI lumens, a contrast ratio of 3,500,000:1 and a WUXGA 1920 x 1200 resolution. Manufacturer Roly states a lifespan of 20,000 hours, which would be the equivalent of 13.7 years at 4 hours a day. With the lens shift function, the projector can be set up very freely. Since it is a short-throw projector, it can be placed very close to the wall. For a 2 m wide image, the projector only has to be 228 cm away from the screen. Video signals 1080P are also no problem for the projector, and can thus project Blu-rays even onto the ceiling thanks to the 360° projection.
