

Roly RL-HW700

ROLY

LASER

Brief Introduction

Beta 2.5

The short-throw RL-HW700 laser LCD projector from Roly has 7000 ANSI lumens, a contrast ratio of 3500000:1 and a WXGA 1280 x 800 resolution. Thanks to laser technology, the projector has a light lifespan of up to 20,000 hours, which is over 13.7 years if used for four hours a day. The integrated lens shift gives you freedom when setting up the projector. Since it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 228 cm away from the screen. Furthermore, it is Full HD 1080P compatible, and even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to the 360° projection.
