

Runco CL 810 ultra

RUNCO CL 810 ULTRA

Brief Introduction

Beta 2.5

With the CL 810 ultra, manufacturer Runco offers a DLP projector with HDTV 1280 x 720 resolution and a contrast of 3100:1. Includes a lens shift function, which provides freedom during installation. The projector can illuminate an image width of up to 359 cm thanks to its 1250 Ansi lumens. In room lighting, however, the picture width should ideally be less than 239 cm. The projector was launched in 2005 and is no longer sold by the manufacturer, but is still very popular in our projector database. Unfortunately, we can no longer offer replacement lamps for this model, neither originals nor replicas.
