

Salange P90

SALANGE P90

A brief introduction to the P90: The Salange standard portable LED LCD projector offers 500 ANSI lumens, a contrast ratio of 20,000:1 and HDTV 1920 x 1080 resolution. Manufacturer Salange states a lifespan of 30,000 hours, which would be the equivalent of over 20.5 years at 4 hours per day. 500 ANSI lumens ensure that a picture width of 227 cm is also possible. However, if room lighting is available, the picture should not be wider than 151 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The projector can also play 1080P without any problems, and even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to the 360° projection.
