

Samsung The Premiere 9 LPU9D

S A M S U N G T H E P R E M I E R E 9 L P U 9

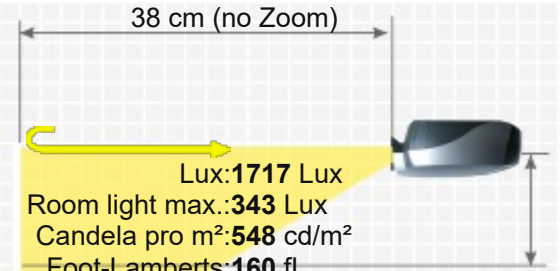

The short-throw Samsung The Premiere 9 LPU9D laser DLP projector has 3864 ANSI lumens, a contrast ratio of 1500:1 and a 4KESHIFT 2716 x 1528 4,150,048 pixel resolution. It is a laser projector with a 20,000-hour light lifespan, which would be 13.7 years with a daily viewing time of 4 hours. The integrated media player allows you to play files directly. Since it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only has to be 38 cm away from the screen. Since Samsung specifies the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. The model recognises DLNA and screen mirroring signals, making it possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. The model is also Full HD 1080P and 4K compatible.

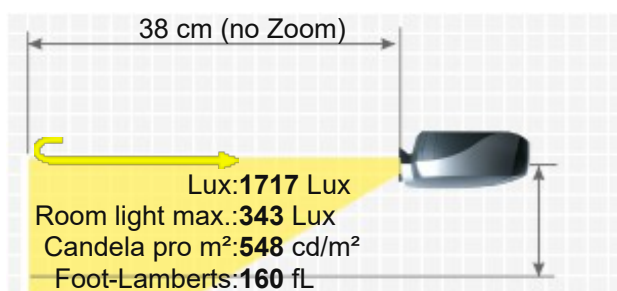

Brief Introduction
Beta 2.5

Display Type	 1 x DLP Chip 4KESH 16/9 Ti Digital Light Processing Chip	
Ansi-Lumen	3864 / 3450 ISO Lumen	1717 Lux (bei 200 cm Screen)
Contrast	1500:1 full on/off	1500:1 full on/off
