

SIM2 NERO4 UHD

SIM2 NERO4 UHD

The SIM2 NERO4 UHD 3D DLP home cinema projector has 5000 Ansi lumens and a 4KESHIFT 2716 x 1528 4,150,048 pixel resolution. The projector also offers a lens shift function, which makes setting up the image childs play. Thanks to the brightness of 5000 Ansi lumens, a picture width of 718 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 479 cm). Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector. The projector was launched in 2018 and is no longer sold by the manufacturer.

Brief Introduction

Beta 2.5

Display Type

1 x 0,66" DMD UHD Chip
4KESH 16/9 Ti Digital Light Processing Chip
