

SkyEcho FreeONE

SKYECHO FREEONE

With the FreeONE, manufacturer SkyEcho offers an LCD LED projector with HDTV 1280 x 720 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years if enjoyed for four hours a day. A picture width of up to 190 cm is possible. However, the picture should be smaller in room light. We recommend max. 127 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Video signals 1080P and 4K (compressed) are also no problem for the projector.
