

Sony VPL GT100

SONY VPL GT100

The Sony model VPL GT100 is an SXR D projector with UHD (4K+2K) 4096 x 2160 resolution and a contrast of 1000000:1. Includes a lens shift function, which provides freedom during installation. A picture width of up to 675 cm is possible. However, the image should be smaller in room light. We recommend max. 450 cm. The model is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 22 decibels makes the projection quiet. On the market since 2013, the model is no longer offered by the manufacturer Sony.
