

Sony VPL SW620C

Brief Introduction

Beta 2.5

The Sony VPL SW620C LCD whiteboard projector has 2600 Ansi lumens, a contrast of 3000:1 and a WXGA 1280 x 800 resolution. With the lens shift function, the projector can be positioned very freely. As the VPL SW620C is equipped with a microphone jack plug and 16W speakers, no additional audio system is required for presentations or training courses. The projector can illuminate a picture width of up to 518 cm thanks to its 2600 Ansi lumens. In room lighting, however, the image width should ideally be less than 345 cm. The projector offers an interactive whiteboard function for interactive training courses and presentations. The model built in 2014 is no longer offered by Sony, but is still very popular in our projector database.
