

Sony VPL VW300ES

SONY VPL VW300ES

A brief introduction to the Sony VPL VW300ES. The SXRD projector has a UHD (4K+2K) 4096 x 2160 resolution and a contrast of 200000:1. The integrated lens shift gives freedom when positioning the projector. An image width of up to 287 cm is possible as the projector has 1500 Ansi lumens. However, if room light is available, the picture should be max. 191 cm wide. Video signals 1080P and 4K as well as 3D are also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. At just 26 decibels, the device is one of the quieter projectors. It was launched in 2014 and is no longer offered by the manufacturer Sony, but is still one of the very popular projectors.
