

Sony VPL-XW6000ES B/W

SONY VPL-XW6000ES B/W

The VPL-XW6000ES B/W 3D laser SXRD projector from Sony has 2500 Ansi lumens and a UHD (4K2K) 3840 x 2160 resolution. The service life is 20000 hours due to the laser, which would be the equivalent of over 13.7 years at 4 hours per day. Including a lens shift function, which provides freedom during installation. An image width of up to 508 cm is possible, as the projector has 2500 Ansi lumens. However, if room light is available, the image should be a maximum of 339 cm wide. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector. This model is no longer offered by Sony, but is still very popular in our projector database.

Brief Introduction Beta 2.5

Display Type

3 x 0,61" SXRD Chip
UHD 16/9 Silicon X-tal Reflective Display (SXRD)
