

SOPPY TS-13

SOPPY TS-13

Manufacturer SOPPY offers the TS-13, a portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 2000:1. Thanks to its LEDs, the projector has a specified light life of 25,000 hours, which equates to over 17.1 years at 4 hours per day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The horizontal and vertical keystone correction allows the projector to be set up very freely. The projector can illuminate up to 144 cm of image width thanks to its 200 ANSI lumens. However, in room lighting, the image width should ideally be less than 96 cm. The projector supports Airplay and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
