

SOPYOU Aurora P5

SOPYOU AURORA P5

The standard portable Aurora P5 LED LCD has 650 ANSI lumens, a contrast ratio of 20,000:1 and an HDTV 1920 x 1080 resolution. The projector is specified with a 30,000-hour lifespan due to the LEDs, which would be over 20.5 years with 4 hours of viewing per day. Since the projector has horizontal and vertical keystone correction, it can be set up with a lot of space in the room. An image width of up to 259 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 173 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Brief Introduction

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display
