

Studio Experience Premier 50HD

STUDIO EXPERIENCE PREMIER 50

The Premier 50HD DLP has 1000 Ansi lumens, a contrast of 1700:1 and an HDTV 1280 x 720 resolution. The horizontal and vertical keystone correction provides leeway when setting up. A picture width of up to 321 cm is possible. However, the picture should be smaller in room light. We recommend max. 214 cm. The operating noise of only 30 decibels makes the projection quiet. This model is no longer offered by Studio Experience.
