The P38 LED LCD projector from TMY has 400 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light lifespan of up to 30,000 hours, which is over 20.5 years at four hours of use per day. The projector can easily illuminate images up to 203 cm wide thanks to the 400 ANSI lumens. However, in room light, the image width should ideally be under 135 cm. The projector has Chromecast, Airplay, Miracast Screen Mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.
