

topeby W210

TOPEBY W210

The topeby W210 model is an LCD LED projector with HDTV resolution of 1280 x 720 and a contrast ratio of 10,000:1. It is an LED projector with a lamp life of 30,000 hours, which equates to over 20.5 years if used for 4 hours a day. The projector is equipped with a built-in media player, so playing files directly is no problem. Thanks to the horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 144 cm is possible. However, in brightly lit rooms, the image should be set to a smaller size. We recommend a maximum of 96 cm. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful feature of the projector, particularly for wireless audio transmission. The projector also has no problem playing 1080p and 4K (compressed) content. Compared to other models, the projector is very quiet, with an operating noise level of 25 decibels.

Brief Introduction

Beta 2.5
