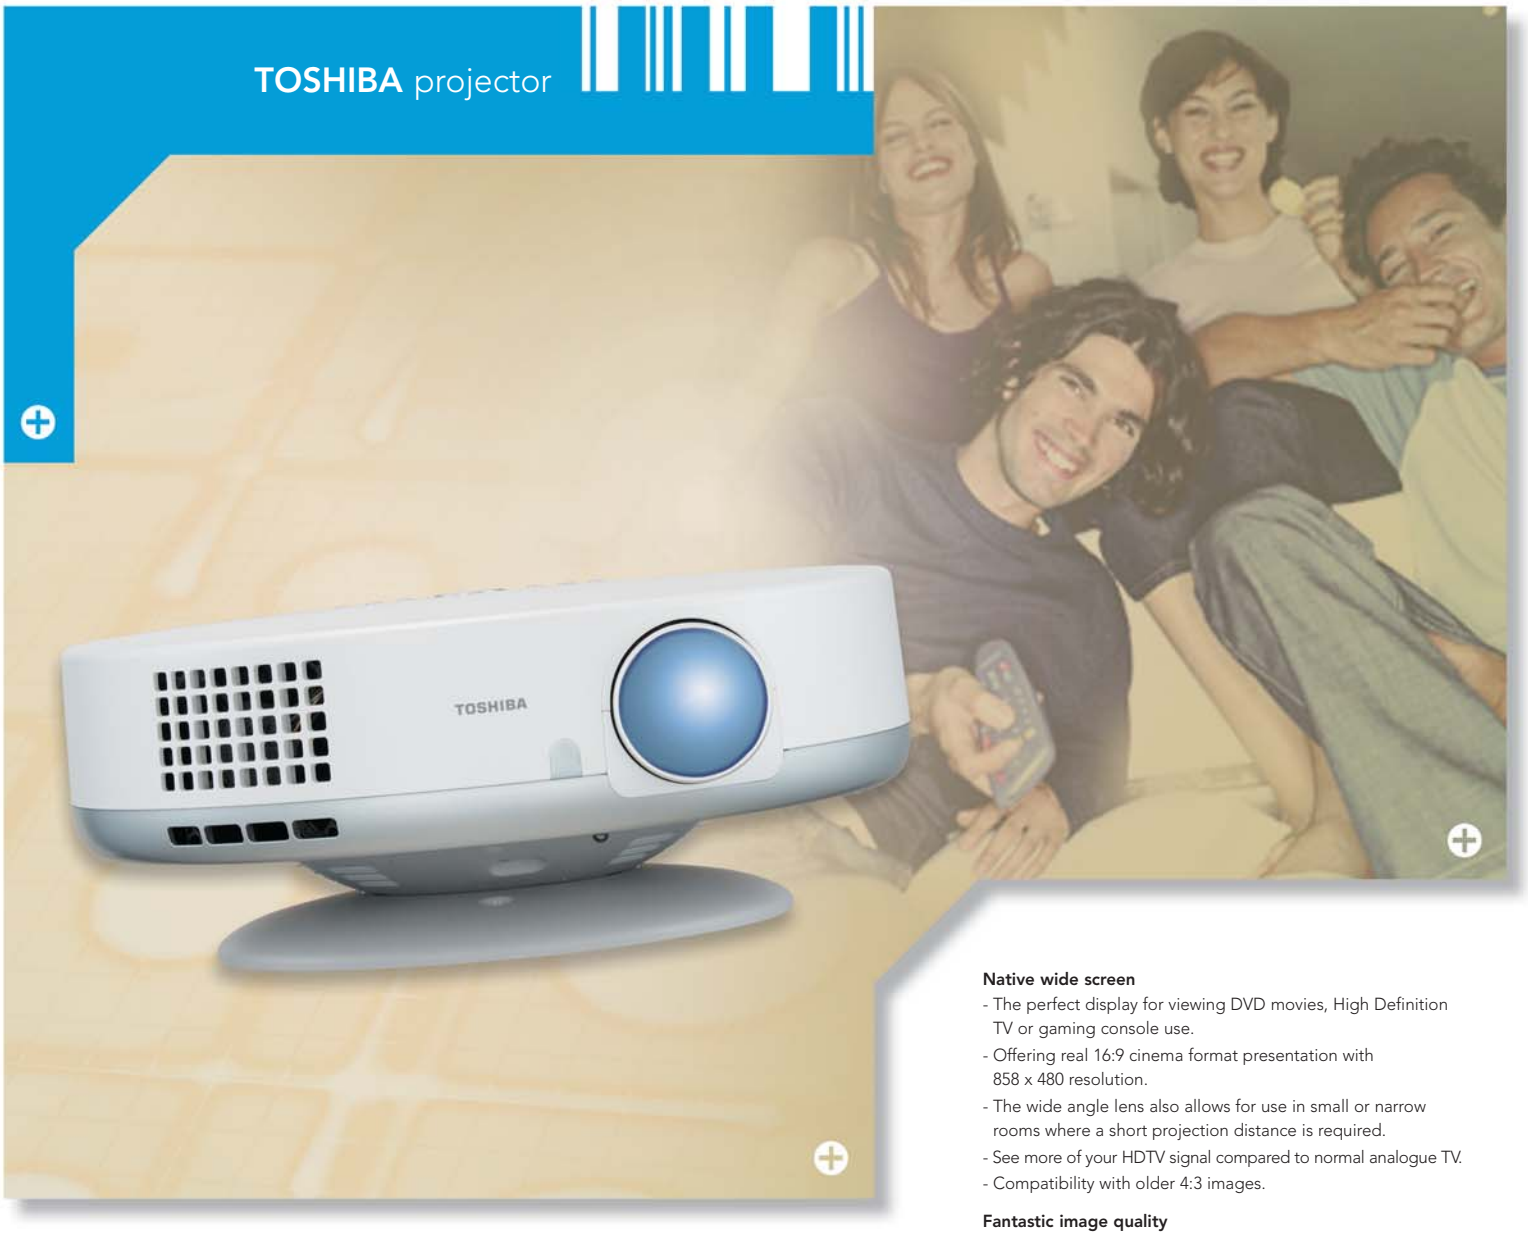
TOSHIBA projector



ET1 Projector

For a Home Cinema experience that is out of this world, look no further than the stylish, new Toshiba ET1 Home Theatre Projector. Simple plug and play functionality means you can connect to your TV, DVD player, digital camera, games console or video camera and the ET1 projector will recognise the device automatically for outstanding ease of use. With an integrated Faroudja DCDi® video scaler, the ET1 projector delivers excellent picture quality doubling the number of image lines displayed in interlaced video for a clearer, sharper picture. The result is that fast action cuts and sports sequences can be viewed at crystal-clear quality and in true motion without any flickering. The ET1 projector is the perfect choice for Home Theatre enthusiasts who want to combine high quality results with excellent affordability and ease of use.

Native wide screen
- The perfect display for viewing DVD movies, High Definition TV or gaming console use.
- Offering real 16:9 cinema format presentation with 858 x 480 resolution.
- The wide angle lens also allows for use in small or narrow rooms where a short projection distance is required.
- See more of your HDTV signal compared to normal analogue TV.
- Compatibility with older 4:3 images.

Fantastic image quality
- Equipped with an integrated Faroudja DCDi® video scaler for flicker-free picture quality.
- Enjoy entertainment that appears even more realistic with three different video modes including "Standard", "Movie" and "Game" for optimum picture quality.

Stylish leading-edge design
- Revolutionary new look and design that is small and unobtrusive in the home environment.
- A subtle white colour ideal for ceiling mounting applications.
- Keystone correction provides a precise picture at just the push of a button.

Integrated sound system
- Powerful 5 watt integrated speakers offer enhanced sound quality with the option of "Normal Stereo" and "Surround Sound" audio modes.

Light weight
- At only 3.5 kilograms, it's easy to take with you anywhere from room to room, office to home or even on holidays.
- Much lighter and more versatile than a Plasma or rear projection TV.

Outstanding ease of use
- Just plug in your source (DVD, HDTV/VCR, games console) for easy setup with simple plug and play functionality.
- Use the remote control to switch between the conventional 4:3 television and 16:9 big screen format to select the desired image size.
- Change the projector brightness from "Normal" to "Eco" mode for an ultra-quiet 28dB noise level and longer lamp life.
