

Toumei M2

TOUMEI M2

The Toumei Model M2 is a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 10,000:1. It is an LED projector with a 50,000-hour lamp life, which would amount to over 34.2 years of use based on 4 hours of daily viewing. The projector also features a built-in media player that allows files to be played directly. Horizontal and vertical keystone correction ensures effortless image setup. With a brightness of 500 ANSI lumens, an image width of 227 cm is possible. In room lighting, the image should be no wider than 151 cm. Thanks to the built-in 15,600 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Google TV transforms the projector into a versatile media hub that can be seamlessly integrated into a smart home. The model recognizes screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Playing 1080p content is also no problem for the projector. Compared to others, the projector is very quiet, with an operating noise level of 28 decibels.

Brief Introduction

Beta 2.5

Display Type

1 x 0,23" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
