

Toumei S6

TOUMEI S6

A brief introduction to the Toumei S6. The DLP LED projector has an HDTV resolution of 1920 x 1080 and a contrast ratio of 1000:1. Thanks to the LEDs, the projector is specified as having a lamp life of 30,000 hours, which equates to over 20.5 years if used for four hours a day. The horizontal and vertical keystone correction provides flexibility when setting up the projector. With a brightness of 450 ANSI lumens, an image width of 216 cm is possible. In room lighting conditions, the image should be no more than 144 cm wide. Thanks to the built-in 15,000 mAh battery, no mains power supply is required, allowing the projector to be set up quickly and flexibly. The projector features AirPlay, Miracast screen mirroring support, which allows high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Another notable feature is that the projector can be connected to external wireless speakers via its Bluetooth function. The projector also has no problem playing 1080p content.
