

Toumei X5 GTV

TOUMEI X5 GTV

Brief Introduction

Beta 2.5

The Standard Portable X5 GTV 3D LED DLP projector from Toumei has 1,600 ANSI lumens, a contrast ratio of 1,000:1 and an HDTV resolution of 1,920 x 1,080. It is an LED projector with a lamp life of 20,000 hours, which equates to over 13.7 years if used for four hours a day. The built-in ambient light sensor (Ambient Light Sensor) detects the ambient light in the room and automatically optimises the image. The projector also features a built-in media player, allowing files to be played directly. Built-in horizontal and vertical keystone correction offers flexibility when setting up the projector. The 1,600 ANSI lumens ensure that an image width of up to 477 cm is possible. However, if there is ambient light in the room, the image should be no more than 318 cm wide. Google TV transforms the projector into a versatile media hub that can be seamlessly integrated into a smart home. The model recognises Chromecast, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Furthermore, it is compatible with Full HD 1080p and 4K (compressed).
