

Ultimea Poseidon E50

ULTIMEA POSEIDON E50

Manufacturer Ultimea offers the Poseidon E50, a DLP laser projector with HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 25,000 hours, which is over 17.1 years with a daily viewing time of 4 hours. Thanks to the ambient light sensor, the projector can automatically optimize the projected image. The projector can illuminate an image width of up to 321 cm thanks to the 1000 Ansi lumens. In ambient light, however, the image width should ideally be less than 214 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. At just 28 decibels, the device is one of the quieter projectors.
