

Viewsonic LS740HD-W

VIEWSONIC LS740HD-W

The Viewsonic LS740HD-W 3D laser DLP projector has 5000 Ansi lumens, a contrast of 3000000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. The horizontal and vertical keystone correction provides leeway when setting up. The projector will be able to illuminate a picture width of 718 cm well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 479 cm here. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.
