

Viewsonic LS920WU

VIEWSONIC LS920WU

A brief introduction to the Viewsonic LS920WU. The DLP laser projector has a resolution and contrast of 30000000:1. Due to the laser, the service life is 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector can illuminate images up to 787 cm wide thanks to its 6000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.

Brief Introduction

Beta 2.5

Display Type

1 x DMD DLP Chip
WUXGA 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

6000

2667 Lux (bei 200 cm Screen)
