

Viewsonic PS750HD

VIEWSONIC PS750HD

The PS750HD 3D DLP has 3000 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. With a projection ratio of just 0.22:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 44 cm away from the screen. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The projector can also play 1080P and 3D without any problems. At just 29 decibels, the device is one of the quieter projectors. It was launched in 2017 and is no longer offered by the manufacturer Viewsonic, but is still a popular projector in our database.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

3000
