VIEWSONIC X10-4K

A brief introduction to the X10-4K: The Viewsonic standard portable 3D LED DLP projector offers 2400 Ansi lumens, a contrast of 3000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer specifies an LED service life of 30,000 hours, which translates to over 20.5 years at 4 hours of daily use. The projector will be able to illuminate a picture width of 498 cm well. However, if room light is available, the picture width should ideally not exceed 332 cm. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. With only 30 decibels of operating noise, the model is already very quiet compared to others.
