VISSPL RD618

EAN/UPC:B0H1C978TB

Brief Introduction Beta 2.5	The RD618 LED LCD has 3,500 ANSI lumens and an HDTV resolution of 1,920 x 1,080. Thanks to its LEDs, the projector has a specified lamp life of 30,000 hours, which equates to over 20.5 years if used for four hours a day. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. Thanks to its brightness of 3,500 ANSI lumens, an image width of 515 cm is possible. The projector will also cope with slightly brighter rooms with a narrower image width (we recommend a maximum of 343 cm). Google TV transforms the projector into a smart entertainment centre with countless functions. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) directly via Wi-Fi with high resolution and surround sound. Furthermore, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. Even 1080p and 4K (compressed) video signals are no problem for the projector. Compared to others, the projector is very quiet, with an operating noise level of 25 decibels.
