The VISULAPEX V3 PRO Portable Gaming LED LCD Projector has 400 ANSI -lumen, a contrast ratio of 10,000:1, and an HDTV resolution of 1280 x 720. Thanks to the LEDs, the lifespan is 90,000 hours, which would equate to over 61.6 years at 4 hours per day. The built-in media player allows files to be played directly. Built-in horizontal and vertical keystone correction provides flexibility when setting up the projector. An image width of up to 236 cm is possible, as the projector has 400 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 157 cm. The model supports AirPlay and Miracast screen mirroring, making it possible to stream high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The model is also Full HD 1080p compatible.
