

Vivitek DK5153Z

VIVITEK DK5153Z

The DK5153Z 3D Laser DLP has 6200 ANSI lumens, a contrast ratio of 3000000:1 and a UHD (4K2K) 3840 x 2160 resolution. It is a laser projector with a 20,000-hour light lifespan, which would be the equivalent of over 13.7 years at 4 hours a day. The integrated lens shift gives you freedom when setting up the projector. The projector will be able to illuminate a screen up to 800 cm wide well. It can handle rooms with low light with a smaller screen width; we would recommend a maximum of 533 cm here. If the image width is insufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Video signals 1080P and 4K are also no problem for the projector, and it can thus project Blu-rays even onto the ceiling using 360° projection.
