

Vivitek DK8500Z - BK/WH

VIVITEK DK8500Z - BK/WH

The Vivitek DK8500Z - BK/WH 3D laser DLP projector has 7500 Ansi lumens, a contrast of 10000:1 and a 4KESHIFT 2716 x 1528 4,150,048 pixel resolution. The lifespan is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector can illuminate images up to 880 cm wide thanks to its 7500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 587 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Furthermore, it is Full HD 1080P and 4K as well as 3D compatible, and thus all currently offered Blu-ray formats can be recognized by the projector. This model is no longer offered by Vivitek.
