

Vivitek DU6693Z

VIVITEK DU6693Z

A brief introduction to the DU6693Z: The Vivitek 3D laser DLP projector offers 7000 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. Includes a lens shift and keystone correction function, which provides freedom during installation. 7000 Ansi lumens ensure that a picture width of 850 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. Video signals 1080P and 3D are also no problem for the projector. The model built in 2017 is no longer offered by Vivitek.
