

Vivitek DU709ZZAA

VIVITEK DU709ZZAA

The stationary DU709ZZAA 3D Laser BrilliantColor DLP projector from Vivitek has 7000 ANSI lumens, a contrast ratio of 15000:1, and a WUXGA 1920 x 1200 resolution. The laser has a service life of 20,000 hours, which equates to over 13.7 years at 4 hours per day. The projector also offers a lens shift function for flexible projection adjustment without any loss of quality. An image width of up to 850 cm is possible; if the image width is smaller (we recommend max. 567 cm), even rooms with residual light are no problem. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port and transmit 1080p/60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Furthermore, it is Full HD 1080P and 3D compatible. Even projection onto the ceiling is possible thanks to the 360° projection. Launched in 2016, this model is no longer available from the manufacturer Vivitek.
