

Vivitek Qumi Q7+

The Qumi Q7+ 3D LED BrilliantColor DLP has 1000 Ansi lumens, a contrast of 30000:1 and a WXGA 1280 x 800 resolution. The manufacturer Vivitek specifies a service life of 30000 hours, which is over 20.5 years if enjoyed for four hours a day. Includes an integrated media player that can be used to play files directly. The projector can illuminate a picture width of up to 321 cm thanks to its 1000 Ansi lumens. In room light, however, the image width should ideally be less than 214 cm. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz image mirroring (screen mirroring). Even 1080P video signals and 3D are no problem for the projector. On the market since 2014, the model is no longer offered by the manufacturer Vivitek.
