VIZONY SQ6

## Brief Introduction

Beta 2.5

With the SQ6, manufacturer VIZONY offers a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 12000:1. Thanks to the LEDs, the projector is specified with a light life of 100,000 hours, which is over 68.5 years with a daily viewing time of 4 hours. Including an integrated media player with which files can be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. 600 Ansi lumens ensure that a picture width of 249 cm is also possible. However, if there is room light, the picture should be a maximum of 166 cm wide. The projector has Airplay, Miracast Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. The operating noise of just 27 decibels makes the projection quiet.
